Connections for information, consultation and
referrals on aging-related issues

LOVE NOTES

Your service helps keep my father where he wants to be—at home!! Eternally grateful for Senior Services!

My knees hurt, and I can't stand. I feel like a kid at Christmas looking for my meals.

Gives me a break—sometimes a caregiver can get overwhelmed with everyday duties and forget about their own health. Getting this break helps me a lot. Thank God for the center.

This service has allowed me to have a better quality of life. May God bless all of you who are showing the care and compassion to people like me.

Participant feels like her life still has value.

Without Senior Services I would not be able to have my mother at home with me. I'm also so thankful for this organization and its staff. You guys are awesome.

Some days the volunteer is the only person I see. Brightens up my day.

My husband's doctor was very pleased after observing the improvements made during his "two-day" schedule at WADC. NOW, per doctor's prescribed orders, he attends the full "five-day" weekly schedule!
